

Reduce pH, Increase Success

BioSafe Systems conducted a farm trial in the fall of 2021 to compare the weekly average water consumption between the control house (house 1), the competitor's acidified product (house 2), and SaniDate® 5.0 + ReduceIT™ (house 3). Products ran from placement of baby chicks through catch. House 3 drank 109% more than house 1, and 33% more than competitor's acidified product.

%Δ Water Consumption

Keep water clean and clear, provide greater antimicrobial control, and promote a healthy gut flora. Use ReduceIT, to quickly lower drinking water pH, and SaniDate 5.0 to prevent scale buildup, bacteria growth, and algae in water lines.

ReduceIT™

- Sulfuric acid (strong acid) + sodium sulfate (buffering salt) formula
- Acidifier and pH control
- Ideal for use while birds are present
- Reduces water pH, ensuring optimum performance of poultry water treatment products¹
- Buffered acids are less corrosive, protecting equipment and workers

SaniDate® 5.0

- Peroxyacetic acid + hydrogen peroxide formula
- Sanitizer/disinfectant
- Biodegradable
- Controls human health pathogens and viruses on hard, non-porous surfaces
- OMRI-Listed

1. Must be pertinent to the approved uses for SaniDate 5.0
